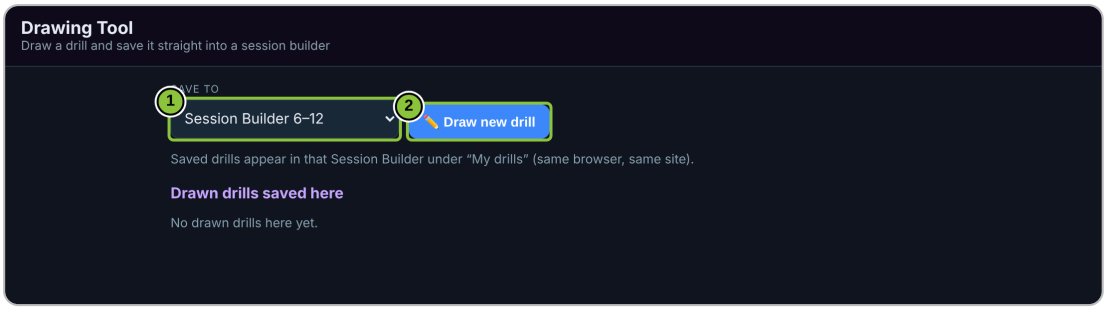
# DRAWING TOOL

How to use the tool · step by step

---

The Drawing Tool lets you draw a drill on a pitch and save it straight into a Session Builder or the GPS Session Planner, where it appears under “My drills” with its picture.

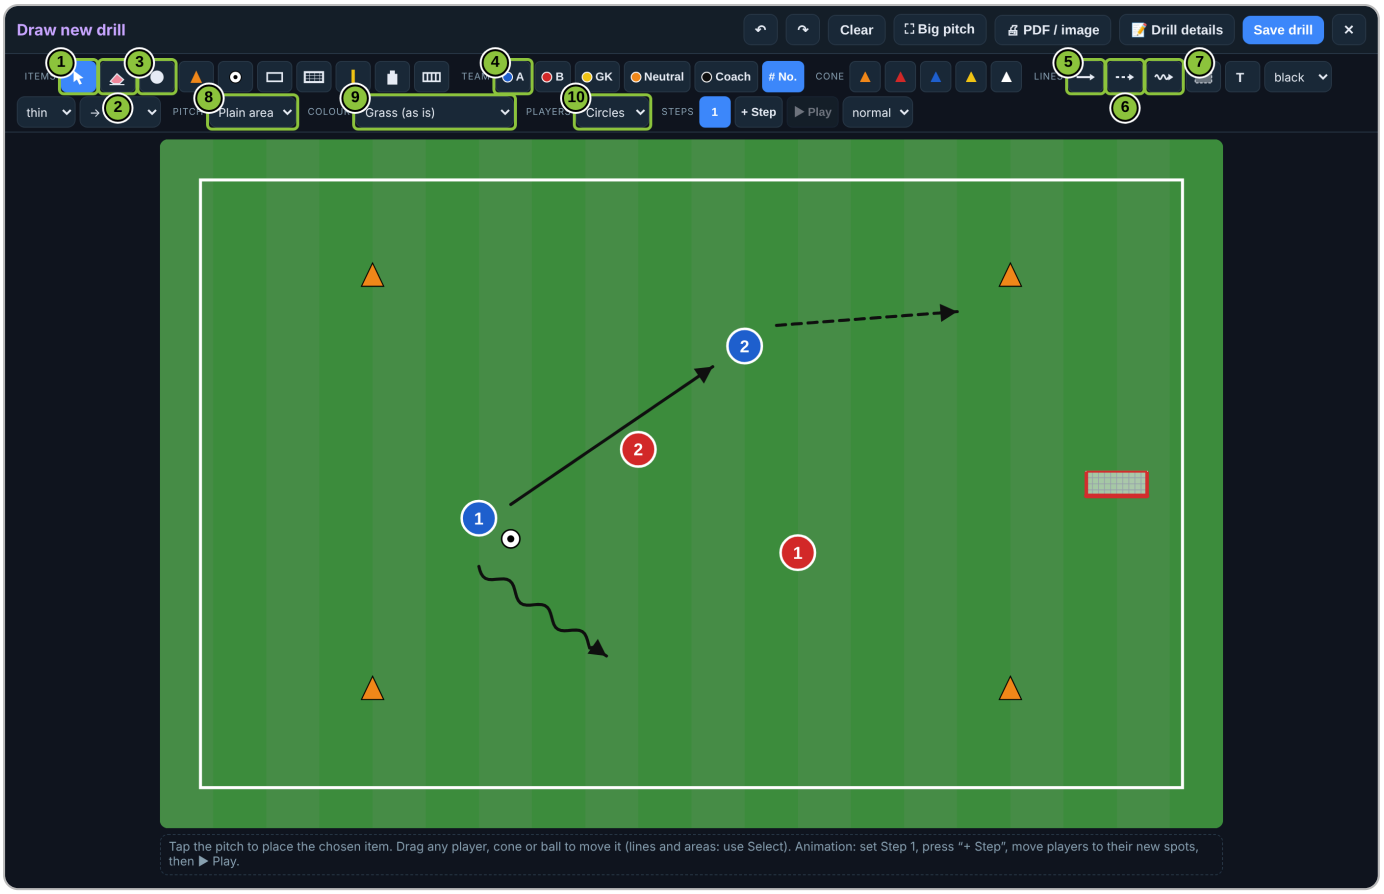
## 1 CHOOSE WHERE TO SAVE



1. **Save to:** Session Builder 6–12, Session Builder 12–16, Session Builder Seniors, Session Planner, or My drawings (this tool only).
2. **Draw new drill** opens the drawing board.

> Saving works when the tools are opened in the **same browser** on the same site. For the Session Planner, open the Planner once first.

## 2 DRAW



1. **Select / move:** drag items on the pitch.
2. **Eraser:** click a line or an item to delete it.
3. **Items:** player, cone, ball, mini-goal, goal, pole, mannequin, ladder. Choose one and tap the pitch.
4. **Team:** A, B, GK, Neutral or Coach.
5. **Solid line** = pass / ball.
6. **Dashed line** = run without ball.
7. **Wavy line** = dribble. Drag on the pitch to draw a line.
8. **Pitch:** full pitch, half pitch or plain area.
9. **Colour** of the pitch: grass, white or light.
10. **Players:** circles or figures.

## GOOD TO KNOW

- Without players and size, a drill saved to the Planner arrives as a 10-minute timed drill (no metres).
- Drawn drills are saved in this browser. Use Export in the builders (or Download backup in the Planner) to keep a copy.
